

HSE PERFORMANCE STATISTICAL DATA

INTRODUCTION

In UTM OFFSHORE LIMITED we recognise that as an organisation WHICH strive to improve the safety culture of everyone involve in our work, we must lead by example.

It is our staffs who deliver our business goals and we attach great importance to ensuring the continued health, safety, welfare and development of our workforce and to minimise the distress and disruption caused by any injuries or work related illnesses which may occur.

A positive health and safety culture needs to be at the core of every successful organisation.

JULIUS RONE
MD/CEO

EXECUTIVE

SUMMARY

Over the past 5 years 2016 **UTM** OFFSHORE LIMITED has achieved a full year without any lost time injuries (LTI). This achievement spanned across all operations and included contractors working both onshore and OFFSHORE for UTM.

The overall trend for total recordable injury rates has been decreasing over the last 4 years, and in 2019 our goals will be to reduce our recordable injury rates to as low as practically possible.

We achieved all HSSE key performance indicators in 2018 as shown our aim was to successfully complete all projects without any lost time injuries, which we succeeded in doing.

We once again proved that we are capable of managing our operations without causing any damage to the environment, by not allowing a single incident where pollutants were discharged into the sea and/or surrounding area.

JULIUS RONE
MD/CEO

This statistic is kept to:

- Review company's safety performance against set targets.
- Identify any positive or negative trends in safety performance of every department of UTM Offshore Limited
- Evaluate key performance areas and areas of improvement
